

[Back to Nuclear Research Reactor Laboratory main page](#)

□

- Stochastic neutronics
- Innovative reactor concepts
- Multi-Physics Research Activities (neutronic / thermal hydraulic coupling)
- Improving Research Reactor safety
- Improving Research Reactor irradiations safety
- Improving Research Reactors' irradiation capabilities – Neutron Screens
- Improving Research Reactors' irradiation capabilities – Flux trap
- RR thermal hydraulics
- Accidental reactivity insertion
- Loss-of-flow accident
- Reactor state identification)
- System monitoring
- Signature patterns
